The Journal of Reproductive Medicine: LYING-IN Subject Index, Volume 2, 1969

Abortion, by aspiration curettage, therapeutic, 291
under the new Colorado law, 256

Antigen-Antibody, system, glucosamine inhibition of the Rhesus, 176

Appendectomy, in obstetrics and gynecology, techniques of, 251

Bacteriuria, of pregnancy treated with a new methenamine salt (methenamine hippurate), 321

Cesarean, hysterectomy in perspective, complete, 13

Chromatin, and the human menstrual cycle: absence of cyclic variation in sex chromatin frequency, sex, 87

Contraception, inhibition of sperm capacitation in the cervical canal by Norgestrel, 265

Contraceptive, serum copper levels in normal subjects receiving an oral, 185

Copper, levels in normal subjects receiving an oral contraceptive, serum, 185

Cytology, The cytologic indices for hormonal assessment (Symposium), 1
in childhood and puberty, Part I, vaginal, 39
in childhood and puberty, Part II, vaginal, 198
in pregnancy (Symposium), hormonal, 101

Ergot, derivatives and sparteine sulfate upon the human uterus, effect of, 147

Estrogen(s), on the lung vasculature of the premature rabbit neonate, the influence of, 140
injection at birth, fertility of rabbits after, 196

Fertility, of rabbits after estrogen injection at birth, 196

Fetuses, in relation to age, weight and length of, 98

Genetic, information, disclosure of (Symposium), 211

Hirschsprung's, disease, familial long segment, 57

Holmes, a commentary on the receptor system of science, Semmelweis and, 236

Hormonal, assessment, the cytologic indices for (Symposium), 1

Hypertension, during pregnancy (Symposium), 62

Glucose, tolerance testing in pregnancy, problems with, 316

Incontinence, in nulliparous women, stress, 96

Infertility, methods of evaluating motivation in, 295
psychologic factors and, 285

Insemination, indications and rationale, artificial, 34

Microbiology, of the female reproductive tract as determined in the cytologic specimen. II. In the presence of diabetes mellitus, 91

Osteomalacia, a cause for obstetrical concern, 326

Ovulation, in *Macaca mulatta*, a study of induction of, 273

Ovum, from the ovary to the uterus, artificial transport of the, 168

Placenta, previa accreta, the etiology of, 101

Propranolol, upon uterine activity in term human pregnancy, the effects of, 188

Psychologic, factors and infertility, 285

Rupture, of the gravid uterus. Review of cases 1950-1966, 231

Semmelweis, and Holmes. A commentary on the receptor system of science, 236

Sympathetic nerves, in control of the nonpregnant and pregnant human uterus, the role of, 20

Toxemia(s), of pregnancy, 116
seen in perspective, the pregnancy, 302

THE JOURNAL OF REPRODUCTIVE MEDICINE

Subject Index, Volume 3, 1969

Amorphous, fetus, a case of, 278

Carcinoma in situ, of the uterine cervix, cytologic, histologic and follow-up studies in 531 cases of, 109

Cervix, factor, the, 121

Computer, based obstetric information system, a, 92

Cone biopsy, during pregnancy, the risk of, 265

Contraceptive, steroids, pituitary gonadotropin effects of, 51

use, the association of mortality from thromboembolic disorders and oral, 44

Contraceptives, adrenocortical function related to use of oral, 3

affect diabetes? Do oral, 169

and neuro - ophthalmologic disorders, oral, 37

and possible future, new approaches in hormonal, 72

calcium metabolism and bone structure related to oral, 61

carbohydrate metabolism and long-term use of oral, 6

liver function and oral, 19

on blood coagulation factors and thromboembolism, the effect of oral, 30

psychological effects of long-term use of oral, 151

thyroid function and oral, 50

Devices, tolerance of intrauterine contraceptive, 244

ultrastructural studies on the endometrial lesions induced by intrauterine, 104

Ectocervix, epithelial abnormalities on the, 265

Editorial, 1

Endometrial, lesions induced by intrauterine devices, ultrastructural studies on the, 104

Endometrium, histologic dating of the, 179

Endosalpinx, suggestive of viral etiology. Report of two cases, morphologic changes in, 114

Epithelial, abnormalities on the ectocervix, 265

Estrogen, administration during labor on the incidence of hyaline membrane disease in premature infants, effect of, 204

Hormones, blood coagulation and anovulatory, 260

Hypertension, during pregnancy, 118

in pregnancy, 264

Intervillous, space pressure response to vasoactive drugs, 248

Intraligamentous, pregnancy, 284

Laparoscopy, a rapid, inexpensive, and effective method of surgical sterilization by, 255

Literature, citations of, 119

Mucus, cyclic changes of muramidase (lysozyme) in cervical, 171

Muramidase, (lysozyme) in cervical mucus, cyclic changes of, 171

Placental, localization using an ultrasonic fetal pulse detector, 271

Pressure, response to vasoactive drugs, intervillous space, 248

Progestational, therapy during pregnancy, 225

Renal, agenesis, bilateral, 220

Salpingitis, isthmica nodosa presenting as a pelvic mass, diverticula of, 216

Sperm, migration in the human female genital tract, 156

Sterility, psychosomatics, psychopharmacology, psychotherapy and, 201

Sterilization, by laparoscopy, a rapid, inexpensive, and effective method of surgical, 255

Temperature, during human pregnancy, the basal body, 209

Toxemias, seen in perspective. Part II: the faculative toxemias and Part II: the obligatory toxemias, the pregnancy, 76
